From The Boston Globe.

It was a day when everybody was tired and anxions to sit down that a large man, carrying a grig-sack, boarded an Eastern Railroad train, and, after walking through teveral zrowded cars, finally found the one varant scat, and seating himself, placed his bag on the cushion at his side. Just as the train was about to start, another man entered and made the same journey in search of a seat. As he stopped inquiringly before the large man, the latter said: "This seat is engaged, sir; a man just stepped out, but will return in a moment; he left his longrage here as a claim to the seat."

"Well," said the second traveller, frankly, "I'm pretty tired, and if you don't object I'll just sit down here and hold his bag for him till he returns," and, without ceremany, this he proceeded to do. Then the large man, who was bound for Lynn, carnestly prayed within the inmost chambers of his little heart that his companion might get off at Somerville, or Everett, or Chelsea, anywhere but Lyan or a station beyond. And the tired man thansed his stars for even a moment's rest, expecting every second to be outsted by the owner of the grip-sack.

The train moved out from the station. In valudid

SAVED FROM HANGING TO DIE OF DELIRIUM.

named John Henessey, of No. 504 West Fifty-fifthst., while suffering from deliruum tremens had
hanged himself by a strap, and when cut down life
was nearly extinct. Upon his arrival at the hospital he soon recovered from the effects of strangulation but delirium again supervened and at 6 o'clock
yesterday morning he died while in an unconscious

He met a young man who said that he was Charles Donnelly and was taken in custody. In the Tombs Police Court yesterday it appeared that he was the brother of the man that was wanted. The prisoner, who is twenty-sixyears old, was then charged with violating the provision of the Penal Code which makes it a misdemeanor to interfere with an officer in the discharge of his duty. He was held for trial in default of \$300 bal. Later in the day his brother was apprehended. The police made 563 arrests last week; the number of permits for new buildings was eighty-six.

The Aldermen, who have no voice in the appointment of Mr. Campbell's successor, were greatly wrought up over the question, and early besieged the Mayor's office. DEAR SIR: I have received at the hands of your brother, Dr. John C. Campbell, your communication of the 26th test, in which you tender your resignation of the office of Controller of the City of New-York. In accepting it I must express the deep regret which I feel at the untoward circumstances which have led you to this decision, and trust that the rehet you now seek from official cares may serve fully to restore you to that most inestimable of blessings—good health. I deare to thank you sincerely for the uniform courtesy and counsderation which have characterized on your part our official intercourse, and beg to assure you of the high regard I shall always entertain for you personally. PURTHER INVESTIGATION OF THE FRAUDS.

Corporation Counsel Andrews was asked if he had taken any action with reference to the resolution passed by the Board of Aldermen directing him to make inquiry as to who was responsible, by negligence or otherwise, for the frauds in the Finance Department, and to take steps to recover the amount of the city's loss. Mr. Andrews replied:

"I wish first to discover the amount the city has lost and the manuer in which it was taken. The investigation made by the direction of Controller Campuell and the one made by the Commissioners of Accounts seemed to establish the fact that the frauds were perpetrated by twice cashing a portion of the city's interest coupons. The committee of the Board of Aldermen in their report beld that counterfeit coupons were used. The Commissioners of Accounts are now engaged in making a thorough and exhaustive examination of the frauds in the Finance Department. The assertion is made that the Commissioners of Accounts say that something startling may be looked for when their report is made public. Under these circumstances I prefer to wait until their report is given to the Mayor. This will show the full extent of the frauds, by whom they were perpetrated and to what extent various officials may have contributed through negligence to the city's loss."

"Who are the sureties on the Controller's bond,

"I do not know who are the Controller's suraties. "I do not know who are the Controller's sureties. There was really no law or ordinance compelling the Controller to give bonds, but it was customary for him to give a bond in the sum of \$20,000, and Mr. Campbell complied with the custom. I do not know whether the bond was for a year or for the full term. The charter of 1873 gives the Board of Alderman the power to compel all city officials to give bonds for the proper performance of their duties. It was under this provision that the Aldermen increased the bond of the Controller from \$20,000 to \$200,000. Until the Commissioners of Accounts make their formal report, I shall take no steps in the matter.

AN INGENIOUS PIECE OF SWINDLING. ROBEING A CLOTHING FIRM OF \$20,000 IN THREE

YEARS.

The firm of Browning, King & Co., manufacturers of ready made clothing, whose factory is at No. 408 Broome-st., and whose saiesrooms are at No. 502 Broadway, is in the habit of receiving cloth in pieces in this city which when manufactured is shipped to their warerooms in Chicago. The cases in which the cloth is received are utilized for this purpose, but as these were sometimes short. John Masterson, who had charge of the packing department, was empowered to order additional ones. This trust, by his own admission, he has abused and during the past three years he has swindled his employers out of about \$20,000. He was directed to certify all bills for packing-boxes furnished from January 1,1882, to this time he has affixed his signature tobills for 11,032 cases when, in fact, only 500 were received.

nature tobils for 11,032 cases when, in fact, only 500 were received.

Masterson, it seems, entered into a conspiracy with Edward Moore, a dealer in second-hand packing-boxes, at No. 529 Pearl st. and John Ford, age forty-two, a resident of Brooklyn, who used to present the bills made out by Moore and certified to by Masterson to the firm and receive payment. The arrangement between the three was that Masterson's share of the moneys obtained on the bills falsely representing cases delivered should be 75 per cent, Ford's 10 per cent, while Moore got the remainder. An examination of the books showed the swindling that had been carried on and warrants for the arrest of the three men engaged in it were issued and placed in the hands of Roundsman Kreuse of the Tombs Police Court, and yesterday he arrested Masterson and Ford. Moore, he ascertained, had obtained knowledge of the steps taken for his apprehension and

Ford. Moore, he ascertained, had obtained knowledge of the steps taken for his apprehension and had fied to Jersey.

Masterson acknowledged his guilt at the Tombs Police Court, stating that he had carried on his peculations for three years. Ford averred that he was ignorant of the arrangement and had merely acted under instructions from his employer. He, however, admitted having received \$5 or \$10 from every collection he made. Both prisoners were committed in default of \$2,500 bail to await the action of the Grand Jury.

THRASHING HIS WIFE'S LOVER.

Mr. McKibbon occupies apartments in a house owned by F. Holme, in Bond-st., West Mount Vernon. A few days ago, prior to leaving home in the morning, he went to a drawer to get a handker-chief and found a letter addressed to his wife by Mr. Wagner, who is employed at a furniture store in the village, making an appointment to see her at her home the following day. Mr. McKibbon consulted with a friend as to what he should do under the circumstances, and was persuaded not to commit any violence. Mr. McKibbon left home as usual the following morning, professedly to attend to his duties. Instead of doing so, however, he concealed himself, and waited the arrival of Mr. Wagner, who shortly after appeared and entered the house. Without allowing the latter much time to make love to the object of his visit, Mr. McKibbon pounced upon him and beat him severely with a club.

Mr. Heinekin said also that the milk produced in Walton and adjoining towns was much richer in cream than that produced in Orange County. The farmers of Delaware County have been making butter so long that the quality of milk, instead of its quantity, has been considered in the breeding of cows. As proof of his statements he showed to the reporter a can full of evaporated milk which had a creamy color and taste. Four parts of water were added to one of the evaporated milk and the result looked and tasted like good milk. Lopez says that he and Kasanagh patied. The captain made further inquiry and learned that the two men were in a rum shop shortly after 12 o'clock. Captain Farrier therefore took Lopez into custody and ordered him to be detained until a full investigation can be made. Both men were drunk and it is thought that they may have quarrelied.

It is looked upon as suspicious at least that Lopez should make a false statement, unless he was too drunk to remember what time it was when he and Kavanagh parted.

VICTORIOUS CLOAK-MAKERS

The strike of the-cloak makers is nearing an end. An enthusiastic meeting was held yesterday at Standard Hull, of such of the men and women as have not gone to work. Word was received that Sitx Brothers, Herman & Brockman, and Schultz Brothers & Blath had signed the agreement and that their employes would go to work on Monday. Friedlander & Casper signed the list of prices but refused to agree to the guarantee as to taking back all the strikers. These men will go back to the shop on Monday but will not go to work until the guarantee is signed. It was reported that 20 contractors had signed the agreement and it is confidently expected that all of them will have signed by Monday. Mr. Goldman, a contractor told the committee that waited on him that he would not take his hands back until they came to him starving. It was therefore ordered that none of his hands should go back for three mouths. The bands employed by Baum Brothers and Greenfield and Rothschild Brothers have ricurned to work.

DRUNKENNESS AND CRUELTY.

Officer Young, of the Society for the Prevention of Cruelty to Unildren, appeared at the Essex Market Police Court yesterday aftermoon with Dora Cassidy, age nine, of No. 376 East Tenth-st. He found her on Friday evening wandering about the streets, and she said that she had not been to her home since Wednesday because she was afraid that her stepmother would beat her. Her stepmother, she said, had beaten her with a poker on Wednesday. The girl's father and stepmother declared that the girl had a good home, but persons residing in the same house testified that he and his wife were frequently intoxicated. The child was placed in the care of the Sisters of St. Dominick. Mr. Cassidy refused to shake hands with his child when she left the court-room, and he threatened to kill Officer Young at the first opportunity. Mrs. Cassidy said that her busband was formerly a prominent merchant in Philadelphia, but he had failed in 1877, since when he had drank constantly. Recently he had been trying to have her sent to the Island, that he might self the furniture and procure money with which to purchase a suit of clothes and liquor. DRUNKENNESS AND CRUELTY.

A NATIONAL SHORT-HOUR LEAGUE.

A regular meeting of the Short-Hour League was held yesterday afternoon at No. 263 Bowery. President Joseph J. Finnerty in the chair. A letter was read from John Swinton, favoring the objects of the League, and suggesting that a mass meeting be called at an early date to arouse interest in the subject. On motion of Alexauder Dunn, the matter was referred to the different unions comprising the League. President Finnerty suggested the holding of a National convention at Cincinnati in September, for the purpose of organizing a National Short Hour League. This matter was also referred to the unions, with a request to report at an early date. It was decided to discontinue the Saturday afternoon meetings, and hereafter the meetings of the League will be held on the first and third Monday evenings of each month.

A SCARCITY OF CROTON THREATENED.

Although the season has thus far been a wet one, the officials of the Department of Public Works say that it is absolutely necessary that the people shall be sparing in their use of Croton water. It is some time since the water ran over the top of Croton Dam, and the Croton River has ceased to supply the amount of water daily used by the city. The average amount of Croton used in each twenty-four hours is from 90,000,000 to 95,000,000 gallons. Already on some days there have been 70,000,000 gallons drawn from the storage reservoirs. Chief Engineer Newton said yesterday that unless caution was exercised in the use of the A SCARCITY OF CROTON THREATENED.

MOTHERS AND CHILDREN PICNICKING. JUSTICE KELLY'S ANNUAL EXCURSION-NARROW

JUSTICE KELLY'S ANNUAL EXCURSION—NARROW

ESCAPE FROM DROWNING.

The fourth annual excursion given by Justice
William H. Kelly to the mothers and children of
the Eighteenth and Twenty-first Wards took place
yesterday. At an early hour troops of boys and
girls under the protecting care of stout-looking
matrons might have been seen hurrying down East
Nineteenth—st. to the pier at which were moored two
large barges, the Chester A. Arthur and William
Sumner. Their arms were loaded with lunch baskets
and their faces wore a happy look in anticipation of
the promised trip up the Sound. When the hour
for the departure had arrived 2.500 women and
children were on board. A tug pulled the barges
out into the stream to the music of a brass band
composed of boys from the New-York Catholic Piotectory under the leadership of Professor Ramphone.
When nearly opposite Thirty-fourth-st, a tug
accompanied by two barges steams—four into
the stream with about 3,000 msrc pleasure
seekers on board. The barges and tugs were
then lashed together and proceeded on their
way. After reaching Point View Grove, L. L. a
landing was made, and in a few minutes the shore
was lined with boys indulging in the luxury of a
swim in the blue waters of the Sound. The mothers
and their children were soon scattered about beneath the trees, where the mysterious lunch-baskets
were unpacked and their contents freely discussed.
At the hotel Justice Kelly entertained a party of
friends at dinner.

John F. B. rlow, of No, 636 Jersey-ave., Jersey ESCAPE FROM DROWNING.

John F. Berlow, of No. 636 Jersey-ave., Jersey City, and a companion, who were rowing in a small boat, were thrown into the water. Justice Kelly and John Russel sprang into a boat and went to the recure of the drowning men. Russel jumped overboard and succeeded in catching hold of Batlow as he was going down for the second time. Barlow locked his arms about Russel's neck so tightly that both would probably have been drowned had not John Burus, of the tug Lena, come to their assistance. Justice Kelly pulled the men into the boat, and Barlow was at length resuscitated. The pelice boat Paird, Captain Schultz, accompanied the party to and from Point View Grove.

THE CIGAR-MAKERS' LOCK-OUT.

THE CIGAR-MAKERS LOCK-OUP.

The principal work among the cigar-makers yesterday was the paying to the locked-out employes the benefits to which they are entitled under the by-laws of the different unions. For this purpose a number of shop meetings were held, and the office of the Progressive Union, in East Fourth-st., was crowded all day. There has been no materiat change in the situation. Members and officers of the Progressive Union evince no disposition to modify their demands in the case of the men employed by Ottenberg & Brothers. On being asked about the likelihood of a consolidation of the two unions, a prominent officer of the Progressive Union said: "I don't think there is any possibility of any such union. Still, if the International Union should make the advances we would receive them in the proper spirit and would give them due consideration." The employes of McCoy & Co. held a meeting at No. 553 Fifth-st. in the afternoon, but no important businesswas transacted. It was runored that the lock-out would be ended on Monday, in so far as the men outside of the Progressive Union are concerned.

day morning. SAFE FROMTHE EFFECTS OF THE OXALIC ACID.
Mary Schwoebel, who on Friday attempted to
poison herself with oxalic acid and repented as
soon as she had swallowed it, lies at the fiellevue
Hospital in a convalescent condition. She is a
buxom Teuton lass, and she seems now heartily
ashamed of herself. She speaks no English, but
she said in German yesterday to a TRIBUNE reporter that she had no reason to be tired of life, that
she had no love affair on hand up to date, and
finally that she had not a notion why she took what
she knew to be poison. THE " ENGAGED SEAT RACKET."

the unaccommodating pig for his selfish deception. So, when Lynn was reached, the large man put forth his hand for his bag, but the stranger drew back the same with an expression of surprise, saying, "I beg your pardon, sir, but this is not your baggage."

"But it isn't yours," stammered the owner, blushing.

"To be sure; but I propose to see it returned to the proper person. Here, conductor, here's a man who wants to run off with this baggage that doesn't belong to him. Somebody put it in the seat to secure a place, and evidently got left at Boston, for he hasn't claimed it, and now this man wants to run away with it," and he gave the conductor a wink, and, as that official knew the stranger personally, he understood the wink, and promptly replied:

"The only thing to do is to return the bag to Boston, and store it among the unclaimed baggage."

"But," expostulated the large man—

"Hold on, there," said the conductor, showing a police badge; "none of this. What kind of a nan was it who left the bag !"

And then the stranger and the conductor and one or two sympathizing passengers combined to confuse the large man, and he bating ta confess to his pigzishness,

"Now I want to know," said a man whose veracity had been questioned by an angry acquaintance, "just why you call me a liar. Be frank, sit, for frankness is a golden-trimmed virtue. Just as a friend, now tell me why you called me a liar!" "Called you a liar because you are a liar," the acquaintance replied. "That's what I call frankness. Why, sir, if this rule were adopted, over half of the difficulties would be settled without trouble, and in our case there would have been trouble but for our willingness to meet each other half way."—[Arkansaw Traveler.
